**Regulations  
on medical assistance provision to foreign citizens studying at  
Immanuel Kant Baltic Federal University**

1. Regulations on medical assistance provision to foreign citizens studying at Immanuel Kant Baltic Federal University (hereinafter - the Regulations) define the procedure of medical assistance provision to foreign citizens studying at Immanuel Kant Baltic Federal University (hereinafter - the University) both on degree programs and within further training courses (lasting more than 3 months), as well as to foreign citizens enrolled in an internship and/or exchange programs. Regulations are aimed at their health protection and ensuring their rights for medical assistance in the Russian Federation during their studies at the University.

2. Medical care is provided to foreign citizens studying at the University (hereinafter — international students):

**2.1. free of charge:**

2.1.1. in case of life threatening conditions or conditions requiring urgent medical intervention of government health facilities of the state or municipal health system;

2.1.2 in case of injuries, accidents, poisoning and other conditions requiring urgent medical intervention by the emergency medical service;

2.2. **on a commercial basis** - in the absence of a threat to life on the basis of a voluntary health insurance policy (hereinafter - VHI).

3. When enrolling at the University for studies or internship, international students must provide their VHI policy valid on the territory of the Russian Federation for the entire period of study to the International Office in accordance with Annex №1.

4. If an international student does not have a VHI policy, the international student must purchase a VHI policy valid on the territory of the Russian Federation at their own expense within 15 calendar days from the date of issue of the order on their enrollment at the University.

Upon the expiration of the previous VHI policy, the international student must purchase a new policy within three working days.

5. The procedure for purchasing and using the VHI policy, as well as information about the minimum amount of medical services that must be included in a VHI policy is published on the official University website, as well as in information handouts for international students.

6. The International Office and the Clinical Diagnostic Center of the University inform international students about the procedure of providing medical assistance, promote medical

insurance as a mechanism of physical and mental health protection - a necessary and timely component of quality educational services.

7. In cases of occurrence and spread of infectious and mass non-communicable diseases (e.g. poisoning) at the University, international students must undergo examinations as part of sanitary and anti-epidemic (preventive) measures developed to eliminate the risk of occurrence and spread of infectious and mass non-communicable diseases (e.g. poisoning) as required by the Federal Service for Surveillance on Consumer Rights Protection and Human Wellbeing and (or) by the University administration.

8. In cases of violation of the requirements stated by the current Regulations, the University has the right to apply disciplinary sanctions to international students, provided for by local normative acts of the University.

9. Foreign citizens studying at the University who have an obligatory health insurance policy in the Russian Federation are exempt from the obligation to purchase a VHI policy in accordance with the Federal Law dated 29.11.2010 No. 326-ФЗ "On compulsory health insurance in the Russian Federation" as well as in accordance with international agreements.
